

2019 PROFILE

— GLOBAL INSTITUTIONAL PROFILES PROJECT

STATE UNIVERSITY OF CAMPINAS

Thank you for your
continued participation
and support of the
Global Institutional
Profiles Project!

INTRODUCTION

The Global Institutional Profiles Project creates accurate and comprehensive profiles of research institutions around the world.

With reliable and objective data on each institution, users of the data in these profiles and elsewhere are better equipped to:

- Validate and quantify executive and strategic decisions
- Support marketing, publicity and other promotional efforts
- Supplement rankings and other assessment initiatives with additional indicators of excellence

By working closely with a multitude of personnel from universities and other related institutions around the world, we have been able to create the richest, clearest profiles to date—portraits of facts and figures on research activity, funding, students, and staff, supported by verifiable indicators from Clarivate Analytics.

ABOUT THE REPORT

This Profile supplements the Institutional Profiles data available in *InCites™* and is provided to organizations contributing to the institutional profiles project. It is based on data from three main sources: data provided by the institution directly to Clarivate Analytics data on the institution's publications and citations from *Web of Science™*; and the results of the annual Academic Reputation Survey.

For more information please see: <http://ips.clarivate.com/globalprofilesproject/>

Clarivate Analytics has conducted extensive validation of the data and applied powerful analytical techniques to interpret and present the data in a meaningful way.

This Profile and all data included herein may be used as a promotional and/or marketing device, as a management tool to be shared internally with colleagues for purposes of evaluation, or to provide institutional research executives with information on research performance. The information in this report may be used to assist students or faculty in the selection of your institution. You may use this report in the following ways:

- Post it on your institution's website (see below)
- Share with administrators at other institutions
- Submit with research assessments or government and funding proposals

Please note the data tables and individual performance results are the property of Clarivate Analytics. Use of any of the information must include the following notice: "Clarivate Analytics reserves all rights to the data and data should not be extracted, republished, redistributed or used for any commercial purpose."

BRIEF DESCRIPTION

The University of Campinas is public university funded by the State of São Paulo. It was established in 1966 in the city of Campinas, with the goal to become an academic center of excellence, producing world-class basic and applied research, providing high-standards undergraduate and graduate education and serving as a catalyst for economic and social development.

Currently, Unicamp offers undergraduate degrees in 66 majors, including medicine, dentistry, several engineering specializations, basic natural and human sciences, applied sciences, teaching and arts.

Throughout its history, Unicamp has placed a special emphasis in graduate education, with about half its student body made up with graduate students.

Undergraduate and graduate education at Unicamp is provided by the State of São Paulo for all its students free of charge. In addition there are many graduate scholarship programs to help support students pursuing graduate degree programs.

Overall, Unicamp is an internationally recognized center of academic excellence, with a very distinct profile among Brazilian higher education institutions as a leader in technology, health sciences, natural sciences, human sciences and arts.

Note: Values and scale on tables and diagrams are cumulative probability scores, representing your institution's place compared to other institutions. Dotted line on the diagram represents a cumulative probability of 50 i.e. the median value. Maximum value is 100.

SUMMARY

We hope you find this report informative and look forward to many years of collaboration to improve our multidimensional approach to institution profiling, data validation, and qualitative assessment. For over half a century, Clarivate Analytics, formerly the IP & Science business of Thomson Reuters has pioneered the world of citation indexing and analysis. All of our analytics tools and services are underpinned by the gold standard citation data in the *Web of Science*. We are therefore uniquely positioned to help you and your institution make informed decisions about current and future research and organizational strategies. We look forward to continuing our partnership with you and welcome any feedback you may have.

The data presented in this report represent just a fraction of what you can obtain when you subscribe to *InCites*, the web-based evaluation tool. The *InCites* platform enables you to access data alongside both article-level and aggregated data and metrics to assess the impact and influence of people, departments, institutions, regions, and publications within the broader research ecosystem.

InCites allows you to objectively and accurately assess the return on your research investments and activities. Starting with a foundation of trusted *Web of Science* data, you can create visually impactful reports to help:

- **Develop** a clear picture of the research activity at your organization—an indicator of future success
- **Measure and benchmark** the research performance of your people, programs and peers to properly allocate funding and attract new talent
- **Facilitate** collaborations that advance your strategic goals and support internal review, reporting and promotional processes

WHO WE ARE

Web of Science Group is the information and technology provider for the global scientific research community, supporting over 95% of the world's top research institutions, multiple governments and national research agencies. Web of Science data is editorially selective, publisher neutral and has been consistently structured since 1950, resulting in our unparalleled data structure. Nearly 10 million researchers at more than 7,000 leading research organizations across the world rely on Web of Science Group to inform and guide research execution, evaluation and planning.
